To

The Chairman

The Utkhede Foundation

First of all, I would like to thank you for giving me financial help for my education. It is very important for needy student like me.

I have Hemophilia disorder, which required expensive medicine to control. Annual fee of Engineering College is also very high. All these expenses cannot be afforded by my family at the same time. In this situation, The Utkhede Foundation annual scholarship was very helpful to pay my annual college fee. Now, I am in the final year of my graduation with good academic record. All this success could not have been achieved without your financial help.

Thank you once again!

Yours faithfully,

Harshal Pawar
